

Keep 'em on campus

Today's students were raised on the excitement and varied food choices of the shopping mall food court. Marriott can help you create this "best buying" environment — right on campus.

With Marriott, your school can choose from a proven variety of branded food concepts, including "Strutters" rotisserie-style chicken, "Firehouse Grill", "Bamboodles" healthy wok-cooking (including great-tasting vegetarian fare), and more. You can also choose from the largest selection of national brand partners in the industry, including Taco Bell, TCBY and Burger King. And you can tap into Marriott's more than 60 years of experience in creating profitable retail environments, with leading edge programs in everything from signage to promotions to management.

In addition, you can offer students a wide selection of flexible meal plans, and a customer driven environment where their input is not only asked for but acted upon.

The result is satisfied students who keep spending their food dollars on campus — and maximizing your revenues.

And, with a happier student body and an exciting food service, a Marriott partnership could boost your overall recruitment and retention efforts as well.

Residents, non-residents and prospects — we'll help you keep 'em on campus. Call Marriott Education Services for a no-obligation discussion of your food service needs.
